

1 you have in mind.

2 MR. SAYRE: Something of that wording was in
3 the previous motion that was tabled.

4 MR. CLAGETT: I think maybe I can answer this.
5 We have taken care of the intrastate in the separate
6 provision in Section 11.07 of Article XI, so we are
7 not concerned with that aspect of it. This is simply
8 the intergovernmental cooperation, and it is so closely
9 allied with the spirit of the model Constitution, although
10 it is less positive and less definitive. I would suggest
11 that since we want to accomplish something rather than
12 lose the whole hog, we had better let a vote stand Yes or
13 No, and hope we get a Yes.

14 THE CHAIRMAN: All right.

15 Dr. Bard?

16 DR. BARD: I think there is value at this time
17 in the history of the country to set forth the declaratory
18 statement, which does give encouragement to intergovern-
19 mental cooperation, and this statement does do it. I,
20 personally, would like to see the wording recast, but I
21 want to see this kind of a statement set forth here.
